# Notice to the Trade.

The prices given in this catalogue are approximative, and subject to our trade discounts, and are F. O. B., St. Louis.

In requesting estimates give all particulars as to quantity, sizes etc., and whether Sand Blast, Embossed, Cut, etc.

Sand Blast work is made clear design with Sand Blast ground, and Embossed work is Sand Blast design on Embossed ground, unless ordered otherwise. Transoms to match any design.

Architects, builders and painters, are particularly solicited to send *their* designs for estimates.

Your favorable consideration is called to the following:

Our Staining Department is particularly adapted to the trade demand and large contract work. Our specialty being *Leading Bevels of all colors*, and the higher grades of work, such as Memorial Windows, etc. and is very complete in detail. *Notice the designs in this catalogue.*

Beveling is a major portion of our facilities, and is carried to the latest demands, meeting all the recent peculiarities in odd shapes, etc., now so popular for Lead Glazing.

Our Crystallized Bevel Plates, both White and *Colored*, are the newest, the White being Polished Plate also Rough Plate, and the *Colored* being Amber, Blue, Red, Green Olive, etc. These Plates are adapted for Lead or Wood Glazing. The Stock Sizes being from 2x2 to 12x12 inches square, with Bevels suitable to their size. We also carry a full line of Plain Polished Beveled Plates same sizes, and make to order any irregular shapes or sizes, both in the *Colored* and White Crystallized or Plain.

Our Crystallized or Chrysmatic Glass is very superior, both in color and designs, and is only made on Double Strength.

# Art Glass Department.

Designs from Nos. 201 to 219 inclusive are especially adapted to White and *Colored*, Plain and Crystallized Beveled Plates Leaded.

Rolled Cathedral Crystallized, one of our specialties, is of a new origin, and with the numerous tints and colors to select from, has no equal at the price. Being adapted for back-grounds or designs in leaded work and in wood glazing for border lights, and is exceedingly brilliant.
